The Mountain Laurel

The Mountain Laurel, a handcrafted log cabin from our **Yankee Handcrafted Series**.

Architecture: This design features Scandinavian full scribe log work of large profile logs and structural timbers. Fit compactly in a footprint less than 43' square, this popular little plan offers a beautiful open floor plan.

Amenities: 3 bedrooms, 2 baths, an upper loft, two exterior upper balconies, a lower family room, a generous porch and deck area, log hand railings and stairs, a fireplace and a lower wood stove ... all in 2,183 square foot. With three levels finished, this attractive design packs a lot of charm and curb appeal. Perfect for a small family, or perhaps as a weekend getaway or for the "empty nester." Possibilities as a smaller commercial application are also endless, and this design is also available in timber framing, MillCrafted log, or any of our package lines.

Exterior Elevations:

- Front Elevation: Shows the main entrance with a stone chimney and a covered porch.
- Left Elevation: Shows the side profile of the cabin.
- Right Elevation: Shows the side profile with a stone chimney.
- Rear Elevation: Shows the back of the cabin with a stone chimney and a deck area.
